**Purpose New Parcel
 Post Rates; First
 Since 1948**

The first readjustment of international air parcel post rates since 1948 for mail from the United States to 156 foreign destinations was proposed May 20th by Postmaster General J. Edward Day.

The new rates, proposed to take effect July 1 would result in increased postage for lighter weight parcels, in many cases, and decreases in postage for heavier weight parcels. These changes are generally necessitated by increased handling costs and by reductions in transportation cost to many parts of the world.

For example: Postage for two pound package to Australia at present is \$10.51 but, under the proposed change, postage on the same parcel would be only \$6.99. On the other hand, postage for the same parcel bound for Mexico is now \$1.50 and will be increased to \$2.00.

The average of international parcel postage has risen from 34 million pounds in 1959, the first full year of operation, to more than 2 1/4 million pounds today.

These rate changes were published in May 20th. Federal Register, and the public is invited to address their comments to the Post Office Department within thirty days. The adjustment can be put into effect by Postmaster General Day under his existing administrative authority. New legislation is not needed.

**MISSISSIPPI TOWNS
 RECEIVE AWARDS FOR
 INDUSTRIAL PROGRESS**

Two Mississippi cities won first place awards in the Memphis Commercial Appeal's Mid-South Resources Bureau's fourth annual Industrial Awards Contest this year. Bronze plaques were presented this month to representative of New Albany and Corinth for their industrial progress. New Albany tied with Milan, Tenn., for first place in the 2,501-to-7,500 population category, and Corinth won first place in the 7,501-to-15,000 class. This was the third consecutive first place award for Corinth. Booneville also won an honor certificate in the contest which recognizes "towns and individuals showing the most progress in industrial attraction and expansion and civic improvement."

BEHIND THE SIGN

What is the story behind this "For Sale" sign? Is it just a house that's for sale, or is this a tale of happiness or sorrow—of success or defeat?

Let's hope this story has a happy ending! But this isn't a world of make-believe we live in. God made us human beings, not puppets. He has given us minds and bodies, nerves and muscles—and weakness as well as strength.

Maybe the story behind this house is a happy one. Maybe it's a sad one. Regardless, the people who lived here, like all of us, will be able to accept both good fortune and bad if there is yet another house in their lives.

The House of the Lord, the Church, has been built to endure through the ages. Here we will always have a home—during our lives on earth as well as throughout eternity.

Copyright 1961, Keister Adv. Service, Strasburg, Va.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

STATE AND REGIONAL
ECONOMY
Mississippi and the regional
economy held firm in 1960, using
1959 as a comparison. Slaughtering
houses did much more busi-
ness in 1960. Mississippi had an
increase of 11 per cent in electric
energy product for utility; and in-
dustrial purposes showed a gain
in construction work on new
home and poultry production rose
ten per cent.

HANCOCK COUNTY Y BENEFITS SOCIAL SECURITY

OUTLINED

At the end of 1961, more than 1500 people in Hancock County are receiving old-age, survivors and disability insurance benefits. The total benefits paid to these people for December 1960 was \$11,194.00, according to Mr. Jerome H. Drane, manager of the Hancock County social security office.

Monthly, about 15 million people were receiving about a billion dollars in monthly old-age, survivors and disability insurance benefits at the close of 1960. Many of these people were made eligible for benefits by the changes in the law made in 1960 — such as the reduction in the amount of work required to qualify for benefits and the removal of the age 50 requirement for disability benefits.

Payments to a retired worker with no dependents receiving benefits averaged \$70.00 in December 1960; to a retired couple, both receiving benefits, the average payment was \$124.00. The average for an aged widow was about \$28.00.

1961 was the 20th year that social security benefits were payable, and the 35th anniversary of the Social Security Act, which became law in 1935. Changes in the law since 1935 have brought more than 9 out of every 10 people in the United States protection by old-age, survivors, and disability insurance — protection paid for by taxes on employees, their employers, and the self-employed. Earnings will be reported to the social security accounts of more than 75 million workers during 1961.

Hancock County people participate and share in this program along with the rest of the United States. The table below shows the number and monthly amount of each type of benefit being paid in Hancock County as of December 31, 1960—the date of the latest available figures.

Beneficiary Gr. No. of	Beneficiaries	Monthly Amount
Retired Worker	579	\$38,916.00
Disabled Worker	33	2,801.00
Wife or Husband Of Retired or Disabled Worker	189	6,547.00
Widow or Widower	96	804.00
Dependent Parent	4	301.90
Mother with Child	27	1,461.00
Children of Deceased or Disabled Worker	181	6,360.00
For the entire State of Mississippi, old-age, survivors, and disability insurance payments at the end of December 1960 were being paid to 150,103 persons at the rate of \$7,223,943.00 per month.		

JACKSON COUNTY GRAIN ELEVATOR OPERATION DATE GIVEN

The 2,100,000-bushel Jackson County Terminal Grain Elevator, nearing completion at Pascagoula, is now scheduled for operation by September 15, 1961, according to officials concerned.

Tree Farmers Include Persons From Every Walk of Life

The widespread acceptance of the tree farm method of managing timber in Mississippi is indicated by the many walks of life represented in the program, according to John W. Thompson, Natchez, state tree farm chairman. Thompson said that the latest groups of tree farmers to be certified by the Mississippi Forestry Association included a soil scientist, lawyer, farmer, merchant, college instructor, doctor, and minister.

The newest tree farmer in Hancock County is J. M. Jones, National Bank of Commerce Bldg., New Orleans. "Some highly optimistic predictions have been made for Mississippi and the South with regard to the future demands for wood," Thompson said. "Many Mississippi tree farmers are taking steps now to improve their woodlands so that they may take full advantage of these opportunities." According to a recent prediction by Dr. Richard E. McArdle, chief of the U. S. Forest Service in the year 2000 the South will be raising more than half of the timber used in the United States. He said that the South has several advantages including a long growing season, warm temperature, abundant rainfall, and soil specially adapted to timber.

The nationwide tree farm program is now in its 20th year. Mississippi leads the entire nation in the number of tree farms. The program in Mississippi is sponsored by the Mississippi Forestry Association, an organization of individuals and companies interested in better forestry. Nationally, the movement is under the sponsorship of American Forest Products Industries.

SOCIAL SECURITY INFORMATION OF BENEFIT TO ALL

Most workers and self-employed people are having earnings credited to their social security account regularly. Mr. Jerome H. Drane, district office manager, stated today. This statement does not apply to some people, notably, the household workers who are not receiving credit under the social security program for their work.

There are cases on file in the local social security office where it was necessary to contact as many as six different employers for information concerning domestic duties they employed. These cases came to their attention when a benefit claim was filed and the record of wages did not show credit for domestic employment. The employer simply did not report the wages to the Director of Internal Revenue for the employee. It was necessary to contact the employer for information concerning the wages that should have been reported for social security purposes.

All persons who pay household help \$50 or more in cash wages during a three month period, must report the wages to the director of Internal Revenue. Earnings as low as \$4 a week during each of the 3 weeks in a calendar quarter will equal \$32, and this amount must be reported.

Mr. Drane stated that the local social security office has several pamphlets which explain the law as it relates to the domestic worker and the employer. These pamphlets are available upon request and they are free of charge. "Don't take a chance," Mr. Drane advised. "Report your household employees promptly and

Flood Control Work Important To Industry

Navigation and flood control by the U. S. Army's Corps of Engineers plays an important role in the state's industrial program, as pointed out in a new booklet on "Water Resources Development in Mississippi" just distributed by the U. S. Army Engineer Division, Lower Mississippi Valley, Corps of Engineers, Vicksburg.

Modern towboats with massive integrated barge tows of more tonnage than ever before in our history are plying the Mississippi river and are serving the state's major river ports. The Army points out in an introduction to the pamphlet, adding: "Increased industrial activity along the Gulf Coast is, for the most part, dependent upon and stimulated by the navigation improvements which have been completed in that section of the state. The security now enjoyed by residents of the Delta area, protected from floods by the Mississippi river levees, has been largely responsible for increased area. Likewise, agricultural and industrial development in that industrial pursuits are increasing in other parts of the state where flood-control improvements have minimized the flood hazard."

TO NOMINATE OFFICERS

The Hancock County Home Demonstration Council nominating committee met Monday morning in the Home Agents office to nominate officers for the coming year. The new slate will be presented at the June 23 Council meeting.

properly, and your workers will have his or her earnings credited for social security purposes."

Kentucky Ketchum

Good news come from most fishermen regarding nice catches of every kind of fish hereabouts. Speckles, fresh water fish, flounders, fresh water cats, mullets, etc., are being caught daily at different spots. Mackerel are appearing at the Keys. A few were caught last week.

Soft crabbing and floundering has picked up and some nice catches have been reported by those who ply the waters every night. The mosquitoes are not doing so bad either.

Stingarees, which most people fear are not here as yet — they will show up as the weather gets hotter. They are at their worst in August and September, the mating season. They are caught occasionally by bait fishermen and in deeper water. A word to the wise: When seeing a stingaree in the water the best thing to do is to watch where you are walking and drag your feet along the bottom, this frightens them away. Let them alone and they will usually pass you by.

Seen soft crabbing lately were John Damborino, John Seafide, John Genin, Nolan Ladner, Henry and Mike Lang, Cotton Blaise, and many others. They each got their share!

The game warden (Nolan Ladner) is on the job — better watch your fishing license and have it renewed on time — they expire in June.

Mr. and Mrs. Arthur Loiacano and Mr. and Mrs. Bubba Saucier made a nice catch of soft crabs Saturday night. They love going out they said.

The golf tournament is still going on at Pace Christian School golf course. Elimination matches are being played daily and the club champions should be known shortly. Among those reaching the finals are David McDonald and John Genin. Good luck to both!

The R. S. Blaise and A. D. Benvenuti families will enjoy fresh

salmon shortly. They are being shipped from the state of Oregon by the Blaise's son, Leslie, and daughter-in-law who are on their way home and should arrive next week. The Blaises and family have been stationed in Oregon.

Specimens are being caught on both the R.R. and Highway Bridges on plugs and bait. Cotton Blaise got his share.

Telegraph Keys are catching it now — boats galore — almost get run over by the anglers if you are not careful. Some speckles are being caught when things clam down. Should be a school to teach fishing enthusiasts how to fish and handle those speed hump! Respect the other fellow. He likes to catch fish also.

Joe Kern, August Buxet and Dec Elliott made a trip for specks Friday. One of those days they were not hitting.

Pere Quintini and Jimmy O'Brien have been getting some large specks lately.

Among those soft-shell crabbing Monday night were Mrs. Jake Morreale and son Richard and Mrs. Roger Heitzmann. They came home with an empty bucket — no crabs.

Shell test drivers add a "pink wheel" to their cars for precise distance measurement during mileage tests. It helps them record performance to a decimal point.

Shell reveals how to increase your mileage up to 30 extra miles per tankful

Here are some tips from Shell's experts on how to get maximum mileage from your car. If you practice these good driving habits—and if you use today's Super Shell, with 9 ingredients for top performance—you may well save a pretty penny on gasoline bills.

1. Don't race a cold engine. With the automatic transmission When your engine is cold, it's sluggish. Let your engine idle until it warms up. You may save a pretty penny on gas.
2. Don't lunge in Jack rabbit starts. When you start, let the car move forward slowly. Don't lunge. You may save a pretty penny on gas.
3. Get those fast-moving wheels. Have your Shell dealer check for wheel drag next time you're in for a tune-up. If he finds drag, you pay for it every mile you drive.
4. Get those fast-moving wheels. Have your Shell dealer check for wheel drag next time you're in for a tune-up. If he finds drag, you pay for it every mile you drive.
5. Get those fast-moving wheels. Have your Shell dealer check for wheel drag next time you're in for a tune-up. If he finds drag, you pay for it every mile you drive.

- fuel, oil whenever manufacturer recommends.
- Have automatic transmission or clutch checked regularly.
9. Get regular oil changes and lubrication—including transmission and differential. Your Shell dealer knows what to do. He has the finest equipment and lubricants to do it with. There's a good chance your car and your gasoline will last longer.
10. Show this advertisement to everyone who drives your car—especially if you pay their gasoline bills. Insist that they stop for service at the sign of the Shell.
- While we can't guarantee 30 extra miles per tankful, the closer these suggestions are followed, the better your mileage is likely to be.
- To start of year, fill up with today's Super Shell. It's the gasoline proven top performance.
- Super Shell's 9 ingredients:
1. 11% oil for smooth power, added mileage and extended engine life.
2. 1% anti-oxidant to keep the oil clean.
3. 1% anti-foam to keep the oil clean.

WHAT PROGRAMS DID YOU WATCH WHEN YOU WERE LITTLE, MAMA?

It's even easy for us to forget that TV's so new. Yet most of our wonderful electric servants have been developed in just one generation. As still more new ones come along, it's good to know that Mississippi Power Company will have plenty of electricity to run them. And the more new appliances you use, the less your electricity will cost per kilowatt-hour. Doesn't that make electricity just about the biggest bargain in your budget?
